

RK-BC-FC01 Fog Light

For Ford Bronco (2021-2026)

BEFORE YOU START Park on level ground, turn off the ignition, disconnect the negative battery terminal, and let components cool before installation.

Safety Information

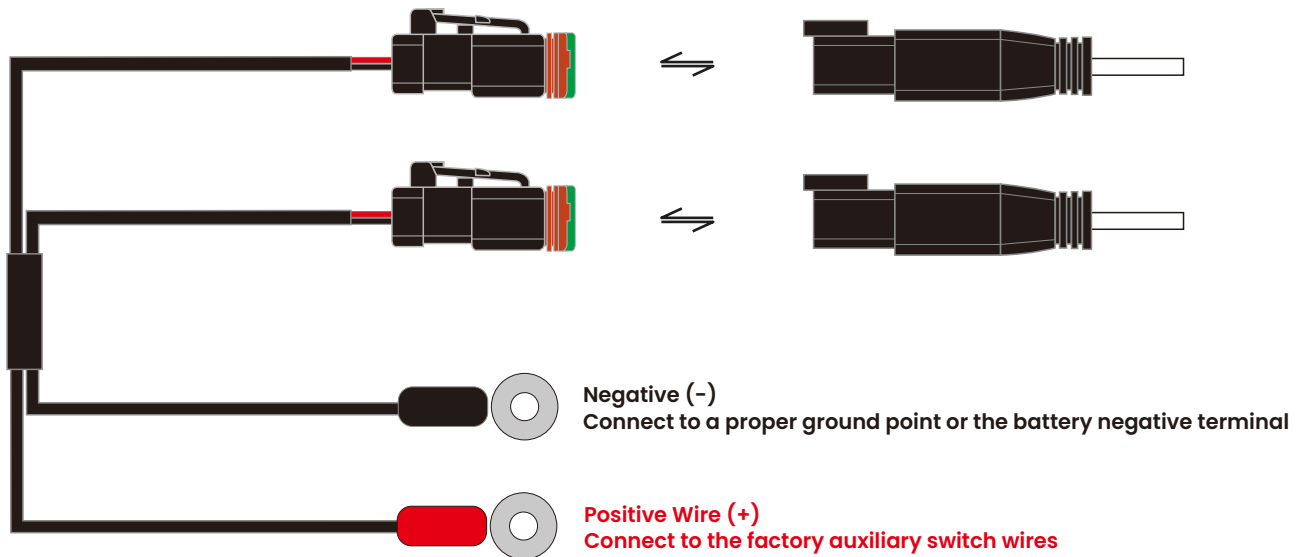

- Park the vehicle on a level surface and engage the parking brake.
- Turn off the ignition and remove the key before installation.
- Disconnect the negative battery terminal to prevent electrical short circuits.
- Please wait until the bulbs and housings have completely cooled before handling them.

Tools Required

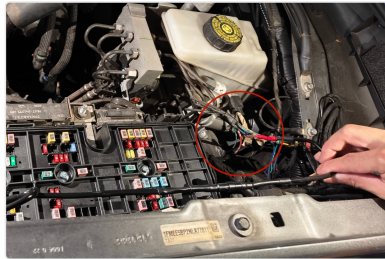

- Socket wrench set
- Phillips and flathead screwdrivers
- Trim removal tool
- Pliers (optional)
- Torque wrench

Wiring Diagram

Match each wire by function. Secure every connection before testing the vehicle lights.

HOW TO INSTALL

1

Locate the fog light mounting area on the front bumper and remove the mounting screws. Position the new fog light assembly into the bumper opening.

2

Install the fog light and tighten the mounting screws securely. Connect the supplied wiring harness to the fog light. Connect the positive wire (+) to one of the factory auxiliary switch wires. Connect the negative wire (-) to a proper ground point or battery negative terminal.

3

Route the wiring away from heat sources and moving parts. Secure the wiring with cable ties if necessary. Turn on the auxiliary switch and verify proper light operation.

FITMENT

- 2021-2025 Ford Bronco Fog Lights

PRODUCT WARNINGS

Use with 9-32 V DC input. The light may become hot during continuous use. Avoid burns and allow cooling before service.

QUICK TROUBLESHOOTING

Issue: Flickering/intermittent light - check the ground and plug connection.
Issue: No illumination - confirm 9-32 V DC input and battery connection.
