HOW TO INSTALL

1

Open the hood and unscrew the decorative plate above the front bezel. After removing the decorative plate, unscrew the mounting screws / retaining screws of the front bezel.

2

Before removing the front bezel, unplug the connecting wire of the side light or remove the side light from the front bezel first, and then remove the front bezel. Remove the headlights by unscrewing the mounting screws / retaining screws of the car lights after removing the front bezel, disconnect the headlight connector.

3

Install the new lights by reversing the removal steps. plug in the connecting wire, and tighten the mounting screws / retaining screws After both sides are installed, install the side lights on the front bezel before installing the front bezel, plug in the connecting cable and then reinstall the front bezel.

4

Reinstall the decorative plate and close the hood.

FITMENT

- Fits 2021-2023 Ford Bronco. Does not fit Bronco Sport models.

PRODUCT WARNINGS

Use only with 12 V DC input. The light may become hot during continuous use. Avoid burns and allow cooling before service.

QUICK TROUBLESHOOTING

Issue: Flickering/intermittent light - check ground and plug connection.
Issue: No illumination - confirm 12 V input and battery connection.
