

RK-UN-HU09 LED Headlight

Installation Manual - Compatible with Jeep, Chevrolet, GMC, Ford & More

BEFORE YOU START Park on level ground, turn off the ignition, disconnect the negative battery terminal, and let components cool before installation.

Safety Information

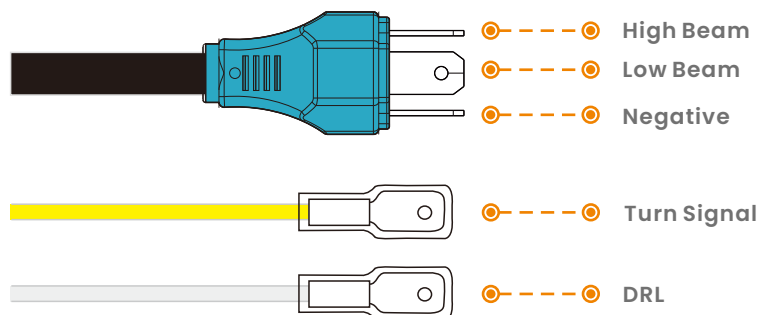

- Park the vehicle on a level surface and engage the parking brake.
- Turn off the ignition and remove the key before installation.
- Disconnect the negative battery terminal to prevent electrical short circuits.
- Please wait until the bulbs and housings have completely cooled before handling them.

Tools Required

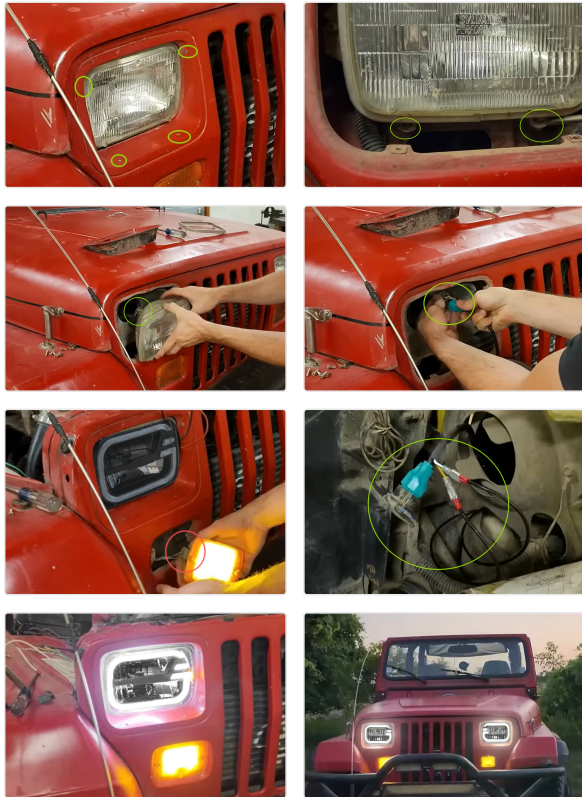

- Socket wrench set
- Phillips and flathead screwdrivers
- Trim removal tool
- Pliers (optional)
- Torque wrench

Wiring Diagram

Match each wire by function. Secure every connection before testing the vehicle lights.

HOW TO INSTALL

1

Remove the screws and take off the headlight bezel.

2

Remove the retaining ring and take out the factory headlight. Disconnect the connector, then connect and install the new headlight. Secure it using the original ring and screws.

3

Open the hood. Connect the turn signal wire to the factory amber light below the headlight. Connect the DRL wire to ACC or parking light power. Ensure all connections are secure and insulated. Note: Wiring configuration may vary slightly depending on vehicle.

4

Turn on the ignition and test all functions. Reinstall the bezel and tighten all screws. Adjust the beam if necessary.

FITMENT

- Jeep Models with 5x7-Inch Headlights
- 1984-2001 Jeep Cherokee XJ
- 1987-1995 Jeep Wrangler YJ
- 1986-1992 Jeep Comanche MJ
